Potato Growers Finished With Large Spud Crop

Florida East Coast Had Its Busiest Season With Large Crop

Local potato digging will come to an end by the close of the week as producers will have shipped their last crops of spuds. The yield has been satisfactory, prices fair, almost most of the crop the past week have been sold to Government and Districts. Potato prices for most of the season have been under former ceiling prices.

Celery shipping also comes to practically a close although Borehardt's will continue to ship a number of cars of late celery next week. Some eggplant will be shipped for at least another ten days.

The Florida East Coast has experienced the busiest season since it was built into the lake region and though somewhat handicapped by strikes, as a whole, packagings and distributors have had their shipments handled in a satisfactory manner. Hopes are high that the short cut route from the Lake to Ft. Pierce will be ready for at least a portion of the 46-47 season, which will mean a more dependable car service and shorter routing time to the northern markets.

Under the new set-up of the Florida Vegetable Committee, James A. Bell becomes one of the joint co-chairmen of the board and W. R. C. C. is a cabbage chairman while A. Duda, Jr., of Oweles and Belle Glade, is on the celery committee and Allen Markham of Okeechobee on the celery committee. L. L. Stucky of Palokoe is the president of the organization.

In the celery movement of the past season from Florida cars were billed to 250 cities in 29 states, the District of Columbia and Canada.

Golden Rams Will Play Ten Game Schedule

Coach Cooke, who has piloted the Golden Rams through two satisfactory seasons, and who will again have a good team in the grid game this fall, has released the schedule for the season. The opening game will be with the Wildcat of West Palm Beach on Sept. 20th and the last game will be played at Palokoe on November 29th.

The full schedule follows:

September 20, West Palm Beach, October 11, Ft. Pierce, October 18, Clewiston, November 1, Dania, November 8, Miami Tech.

Games Away: September 27, Stuart, October 4, Vero Beach, October 11, Lake Worth, November 15, Delray, November 22, Palokoe.

Coach Cooke has again leased the training camp over at the Everglades City reservation where the lads will get their fall pre-season training. Better and more accommodations will be provided by the management for the squad and there will also be a number of social functions.

Stuart Now Leads In Lake-Coast Base Ball League

Stuart now leads the Lake-Coast series league by its defeat of Morrison Field, Sunday by a score of 8 to 1, while Belle Glade is second with a score of 4 to 1 over the Lake Worth Ramblers their first set back by a score of 4 to 1.

The joint co-chairmen of the league, L. L. Stucky of Palokoe is the president of the organization.

In the celery movement of the past season from Florida cars were billed to 250 cities in 29 states, the District of Columbia and Canada.

School Cafeteria A Busy Place During School Year

Mrs. F. D. Stevens, manager of the local school cafeteria, has submitted her report for the year. The cafeteria has been a busy place during the school year. The cafeteria has been a busy place during the school year. The cafeteria has been a busy place during the school year.

Financial Standing: Balance from 44-45 \$ 579.26 Federal aid 2012.16 Cash, Income 15388.40 Donations, for ice box 673.00 Raised from outside dinners 181.43 Total 21834.34

Expenses: Meat \$ 2809.32 Groceries 470.69 Bread, cookies 772.22 Milk, ice cream 5078.85 School supplies 280.81 Cafeteria supplies 229.11 Payroll 6663.40 Incidentals 382.66 Total 20963.96

Donations made during the year were as follows: Large can spicer, Mrs. H. Chambliss. Twelve dozen soup bowls, Mrs. Ruth Wedgworth. Vegetables delivered to cafeteria, Borehardt, Thompson, Darden, American Fruit Growers.

Takes New Position: Maurice Fletcher, formerly faculty member at the Palokoe High school and a veteran of three years in the German and French war sectors, has accepted a position as assistant paymaster for the Oklaeta Gators corporation.

Salvation Army Plans Financial Drive For Glades

Army Stresses Need of Funds to Conduct Program Work Here

The Salvation Army will conduct an emergency whirlwind appeal for a welfare fund of \$2,750.00 in the Belle Glade area beginning Wednesday, June 12. Ralph Freeman, chairman of the local Advisory Board, announced a special meeting with Major Charles Johnson, Palm Beach County Commander.

Among the acute needs now facing the Palm Beach County are the many material assistance to veterans and their families, transient men, women and children, who are being housed at the Salvation Army.

The Board of County Commissioners has granted the Salvation Army use of a large dwelling house in West Palm Beach for the temporary care of transient women and children.

This particular service, which is for the entire county, has not been given since the home was opened last June. Demands have been so heavy that the operating costs are far in excess of anticipated expenses.

Pointing out this juvenile delinquency has increased in the last few years, 272 per cent, Salvation Army officials consider the immediate expansion of their summer program for children an emergency measure essential to the curbing of this trend.

In the local budget, a fund has been set aside for taking thirty children for a week of camping experience at the Glades area.

Family Welfare emergencies are on the increase, and the problem involved are much more complicated than before the war. As an aid in the solution of these situations, Helen Potter, well known in Palm Beach County, for her social welfare and case work ability has been retained as director of Family Service for the Salvation Army, whose services are available to the Glades area at any time for consultation, and case analysis.

Officials of the Salvation Army from the Nassau level down, are currently making plans to train youth leaders and officers in the specialized fields covered by the multiplicity of appeals made to the organization.

St. Paul's Florida, camp is to be installed for youth leadership training, and institutes for volunteers. Officers will be permitted to assemble there for refresher courses.

From this specialized activity it is being expected that in the future personnel will be available for the activation of the National Army Rural Service Program in Palm Beach county and other sections of the country.

Seniors Make Donation

Each year it is the custom of the graduation class of the High school to make some definite donation or reimbursement to the school. The 1946 class has been quite successful in money raising and after all its bills are paid, it will leave with Prof. Frank Hansen, as its donation, several war bonds and a large sum of money.

It is understood that this gift was presented with a view of it being expended for the betterment of equipment for the Auditory and Visual Education work, to include a projector machine, records and a reel library. Records will be loaned pertaining to school work in the various branches and will be used in the class and lecture rooms each year as the subjects are being studied.

No Change in Personnel

Forrest P. Trakes, the new president of the U. S. Sugar Corporation, spent the past week in Clewiston looking over the field and becoming acquainted with its production and its duties. Leaving for his home in St. Louis he stated that he had no immediate intention of changing the employment personnel of the corporation staff at Clewiston.

Pastors Attending Florida Conference

Rev. Jay O. Jamison and Rev. Walter Cross, of Belle Glade and Rev. T. E. Ferguson of Palokoe and the pastor of the Canal Point church, along with church laymen, will attend the annual conference of the Florida Methodist church at Daytona Beach the coming week end. Bishop Arthur Moore of Atlanta, will preside over the session.

The Methodists of Florida have completed the first two cycles of the "Crusade for Christ" program, with a great deal of success and soon enter on the third year work of the General Conference plan. The local Belle Glade congregation sends up a fine report showing increases in all the work.

Rev. Jamison has a just pride in the report which marks the more than 13 years as minister of the Community church.

Odd Fellows Accept Invitations to Attend Baptist Church

At the last meeting of the Odd Fellows lodge 1000 and 1001, the lodge was extended and accepted of from the Rev. E. B. Enlow, of the First Baptist church for the lodge to attend divine worship there on Sunday morning, June 9th at 11 o'clock, day-long saving time. Members will gather at the lodge hall at 10:30 and march in a body to the church.

At this time and occasion visiting Odd Fellows of the various branches from Okeechobee, Stuart, West Palm Beach, Miami and Moore Haven will be guests of the local lodge.

No Summer Meetings

The Glades Branch of the National League of Wholesale Fresh Fruit and Vegetable Distributors will hold no business sessions during the summer, so there will be no meeting in June. Business of the Branch will be conducted by members of the Advisory committee.

Sportsmen Club Elect Directors And Enjoy Films

Completion of the organization officers for the new sportsmen's club was effected at the city hall Friday night. The new directors elected were: Joe Cherry, M. D. Hardy, Lou Betzner, "Map" Parsons and Robert Davidson, they being chosen from a list of ten names submitted for consideration.

The officers and the directors are to formulate the Constitution and By-laws for the club at a meeting to be held on June 7th.

The business session was brief but an hour was very profitably spent in seeing a number of films depicting conservation, hunting and fishing in Florida.

The hunting story from the Cypress was sure a "honey" and had the hunters present yelping along with the dogs portrayed as they cornered the panther and wildcat.

It was brought out that the panther and wild cats in the Cypress were the killers of deer and small cattle and the panther is the largest and fiercest fighting animal in Florida.

That a black bear caught and kept during spawning season, was a good example of a man deprived of depositing its millions of eggs for propagation, thus lessening the potential fish life of the waters.

That conservation officers of the state attend an annual school of instruction at Tallahassee at which they are given the latest training and techniques of their profession, along with a thorough drill on new laws, regulations and treatment of the public.

It was shown that garfish, mud fish, suckers and turtle are the predatory fish which eat the eggs and destroy the nests of all other food fish.

That the Conservancy Commission force seine for brood fish and then propagate the spawn at the state hatcheries, thus distributing millions of fingerlings fish to the state waters.

Thirty thousand bass and crappie are put in the water each year at the state hatcheries and deposited in Martin county and Palm Beach county will soon be given a like number or more.

SOUTH BAY GRADUATING CLASS

Front row, left to right: Maria Barney, Viola Haven, Margaret Campbell, Marguerite Byrd, Mary Lois Hodges. Second row: Doris Martin, Bobbie Crouch, June Ratley, Betty Lee, Kate White, Mary Hemphill.

Back row: William Archer, Vance Greer, Purvis McAllister, Thomas Williams, Ralph Goodbread, Rayford Smith, Buck Cobb.

LaBelle May Get A Louisiana Sugar Refinery

That the West Everglades sugar cane deal is going to have an expansion program was made more certain the past week when representatives of the R. H. Sugar Corporation, Broussard, La., met with Hendry and Lee county farmers at LaBelle, to discuss the plan of planting experimental plants for the growing of cane.

The company finds that its growing acable in Louisiana is the long and that the production time too short, and that they are desirous, if plant tests prove successful, to move their entire grinding and refining plant to the Glades, with LaBelle as the most likely location on account of rail, water and highway transportation.

Eugene Caldwell, of the R. H. interests, presented his program and as a result a number of agreements in the Caloosahatchee valley have been made for participation in the plan.

The plan is to secure the selected spots from the 3 to 5 acre plots and then plant cane available for the Glades area. The plan will be under the supervision of H. L. Johnson, Hendry County farm agent, and Dr. F. D. Stevens, of the Everglades Experiment Station.

Representatives of both the Atlantic and Seaboard railways were in on the conference, as were a number of other business men from Jacksonville and Ft. Myers.

Alma G. Kirkland Assessed This Life On Wednesday

It was with the deepest regret and sorrow that people in Belle Glade learned of the passing away on Wednesday of Mrs. Alma G. Kirkland at a hospital in West Palm Beach, where she recently submitted to a major operation. Mrs. Kirkland has been in declining health for some weeks past.

Born and raised in Texas, she came to Florida some 15 years ago and for the past 11 years has been a resident of Belle Glade where she had made a large circle of friends. She for several years assisted her husband, Grover Kirkland, in the Western Union office, and had lately had been a postoffice clerk, a position which she held until a few months past.

She was a member of the Baptist church and was a volunteer in the church, and was a member of the Ladies Aid Society of the church.

Mrs. Kirkland, who was 45 years of age, survived by her husband, Grover Kirkland, and her son, Grover, Jr., a grandchild, a postoffice clerk, and a daughter, Mrs. Julia Higon, and Mrs. Lila Nichols.

Funeral services will be held at the Miami-Simmon funeral home at 415 Hibiscus street in West Palm Beach, Friday afternoon at 2 o'clock, conducted by Rev. E. B. Enlow of the Belle Glade Baptist church. Business places will be closed by the hour of the hours of 4 to 5 o'clock.

City To Have New Shop

Charles Bert, who has been engaged in the building contract game here for the past three

Everglades Federal Savings and Loan Association

years, is branching out into a new line of business and has rented a store on South-West Avenue B where he will open up a modern cabinet and carpentry shop. He plans to manufacture such doors, screens, refinish furniture and do general furniture repair work. Part of the machinery for the new plant has arrived and other is in transit.

Silver Dollar Building Is Being Renovized

B. Q. Waddell, Sr., station master for the Florida East Coast, has recently purchased the Silver Dollar apartment and office building over in the parking house district.

Mr. Waddell has started in on a program of renovating the entire upper floor, rearranging, refurnishing and returning all apartments and he will also do likewise to some of the ground floor space.

The offices in the building will be improved, painted and cleaned up so that they will be attractive places of business.

The plan is to secure the selected spots from the 3 to 5 acre plots and then plant cane available for the Glades area. The plan will be under the supervision of H. L. Johnson, Hendry County farm agent, and Dr. F. D. Stevens, of the Everglades Experiment Station.

Representatives of both the Atlantic and Seaboard railways were in on the conference, as were a number of other business men from Jacksonville and Ft. Myers.

South Bay Junior School Holds Its Commencement

Graduating exercises for the Eight Grade were conducted at the South Bay school auditorium on Friday, May 31 at 2:30 p.m. The exercises were under the direction of Principal Harold S. Emery.

The program was presented by the class as follows: Processional, Invocation, Class and audience, Duet, Class and audience, American, The Beautiful, A Choral Reading, Class.

In this choral reading the class attempted to bring its impression to the audience.

Campbell Goes To Iran

Arthur Campbell, for many years a resident of Belle Glade, who served a stretch in the service, and later sold insurance here, accepted a contract with a large Miami contracting firm and last Friday left by plane for far off Iran or Persia where he will be on for a five year period. The firm has large developments in Iran and he is to be in a key position.

Leaves Royal Empire

Cooper Phipps, who has been at the head of the advertising department of Royal Ice, Inc., has resigned and is planning going into the advertising and sign painting business, being an artist in that line of work. Mr. Phipps will continue to manage the Friendly Style Shop.

To Reimburse Cattlemen

Attorney General Tom Watson has given an opinion to Dr. J. V. Knapp, head of the State Live Stock Commission, that it will be legal for the department to come to the aid of cattlemen who are in on the "tick eradication" program. The cattlemen had asked that the department reimburse them for half of the cost of the dipping of their cattle, which was placed at 15c per head, and that payment, who are in on the basis so as to help them bear their unexpected costs on the Federal Savings and Loan Co. payments to the cattlemen will be made has not been determined.

Local Loan Association To Make GI Guaranteed Loans For Home Building

Daphne Schreiber Mending Slowly

Daphne is having a birthday Sunday. Mrs. Schreiber's illness and the doctors allow her to have visitors and permit her to be in her room.

She is responding to treatment and her mother is allowed to visit her.

A number of the members of Daphne's Girl Scout Troop, with which she has been very active, visited her Monday at the hospital.

To be in the hospital is not a cheerful experience, but to be inside an iron lung with the uncertainties of polio is most depressing. Mrs. Schreiber, a nurse, a card, a few flowers, or in person go a long way in passing the time.

The GI Bill any veteran can use to help him get a home loan guaranteed up to a total liability of the government not to exceed \$10,000. The rate of interest is fixed at 4 per cent and there are certain charges computed approximately \$1.00 per month. The loan is known as a legitimate expense.

Procedure now known requires that a veteran must have before making application: Original discharge from service; set of plans and specifications; satisfactory bid for completion; \$17.50 for appraisal and credit report.

A veteran should be regularly employed and be able to show that he can make the required payments of \$6.00 per thousand plus approximately \$1.00 per thousand for insurance and taxes, and that this total monthly payment does not exceed 1-4 of his monthly income. The Veterans Administration will (Continued on Page 4)

Colder Climate And Hotter Pay-Days Get Station Scientist

Dr. G. R. (Dick) Townsend plant pathologist for 13 years at the University of Experiment Station, known hereabouts as the daddy of the Dixie Belle bean and numerous methods of fertilizing, spraying or treating in disease control of Glades vegetables, left this week for a job with the USDA at Beltsville, Md.

A specializing in a branch of pathology, coupled with a most generous attitude towards his work, Dr. Townsend is a most popular figure in the community.

The Glades Appliance, which is coming to a group of homes over in the Hollywood addition is now planning on soon starting an outdoor group of concrete block houses over in the new Sylva subdivision just south of the Glades bridge.

Property owners over in the Terminal section, where the apace company has its operation, are in charge of the work to the City Commission an easement for a new street which will approximately west of the city's office.

New Scout Troop To Be Invested Sunday Night At First Baptist Church

A. P. Patterson, Scout Executive, will officiate at the investment ceremonies of a new scout troop sponsored by the First Baptist church.

Lester Clark, the doctor, did not of the fifteen or more boys of the new troop. Among the Committee in charge of the troop are: Dr. B. B. Dandridge, I. E. Enlow and Tommie Forney.

One of the improvements planned under the Experiment Station appropriation has been started in the new 40x100 foot machine shop and fire lab building. This machine shop will be used for the producing of various machinery needed in the fire testing program and the laboratory will be the testing grounds and experimental station for all kinds of fibres, mainly for new processes in handling ramie.

Moves Its Office

The RFD, with which Glades people have much business, has moved its office to larger quarters on the fourth floor of the Federal Savings and Loan Co. on Olive street, in West Palm Beach, one more floor higher than it was previously located.

Applications To Be Accepted As Soon As Details And Forms Available

The Board of Directors of the Everglades Federal Savings and Loan Association voted unanimously to make loans to G.I.'s in this area for guarantee under the GI Bill of Rights. This action came after members of the Board of Directors had reviewed the revised law, which removed a great many red tape avenues.

The Glades Veterans Service Committee and the Veterans Administration collaborated in simplifying interpretations of the regulations and urging favorable action and feel that the door has been opened to housing for many veterans who otherwise would not be able to live in decent surroundings, not to mention comfortable and desirable quarters.

Under the GI Bill any veteran can use to help him get a home loan guaranteed up to a total liability of the government not to exceed \$10,000. The rate of interest is fixed at 4 per cent and there are certain charges computed approximately \$1.00 per month. The loan is known as a legitimate expense.

Attend Shrine Ceremony

Messrs Lou Currier, Al Kirchman, Joe Cherry, Walter Schlichter, Dick LeFils, Frank Anderson, Lou Betner, Luther

Jones and D. C. DeHaven formed a party from Belle Glade to attend the spring reunion of the Shrine at Miami Saturday. They participated in the parade, the Chase feast and the ceremonies later in the evening.

Notice of Change of Store Ownership

Have purchased the GROCERY and POULTRY business of Rev. T. F. Meeks on Southwest Fifth street, and will continue their operation at the same location.

Having our own refrigerated delivery meat trucks, our market will always be supplied with a full stock of FRESH MEATS

CURED MEATS

DAY OLD EGGS

POULTRY OF ALL KIND
GROCERIES AND VEGETABLES

We invite you to make acquaintance with our store and merchandise and make it your purchasing market for your table use commodities.

We will continue our WHOLESALE sales of meat to dealers and restaurants as we have been doing for the past six years. We are in Belle Glade to make our home and business stand.

J. W. SMITH

Proprietor

H. G. SMITH Associates FRITZ SMITH

The Dixie Belle, descendant of the Florida Belle, grows an upright stalk, with leaflets at a 45 degree angle and the pods held high from the ground. This bean produces prolifically.

OBSERVATIONS

Continued from page 1
church and civic club attendance are going to fall short. Then you know there is an inward tendency in many to like out on a Sunday fishing or picnic party.

We are likely to have a few months of inactivity in the Glades during the summer, but if things in the material and industrial lines get more settled and a bit more secure, then just

watch our dust when the fall season opens up. There will be such expansions along all lines that one can hardly believe conceivable. The Glades has got its start and there is nothing which is going to deter what has been planned. We need more homes, more business places, better school facilities, more public buildings, more industrial growth and a wider growing of reasonable crops beyond the staple ones now grown.

Soon time for Belle Glade

Of course SEWING MACHINES are our specialty, but we can now offer you reliable repair service on electric irons, toasters and hot plates. Also 3 to 4 day service on radios.

If you should wish your SEWING MACHINE picked up, a post card will do the trick. New machines are on the way.

RHODES APPLIANCES

Avenue A Belle Glade, Fla.

electors to be thinking about the annual municipal election. Two of our present commissioners have terms expiring, namely McDonald and Van Landingham.

South Shore Athletic and the school authorities have started making improvements and repairs on the athletic field which sustained some damage during its unused period and the time improvements were being made in its vicinity. They promise a fine field this fall, more bleacher seats, and other accommodations. Five home games will certainly thousands of fans.

Kirchman Honored

Governor Caldwell on Tuesday named a board of 17 men to be supervisors on the Central Florida Regional Housing Authority and A. E. Kirchman, of Belle Glade is one of the group, and is also made chairman of the Board. The appointments are for a four year period. Mr. Kirchman will represent Palm Beach county.

CARD OF THANKS

The members of the St. Mary's Altar Society wish to extend their thanks for the sale and splendid cooperation given them on the recent raffle of the Ford car. Proceeds are to go into the Belle Glade Catholic church fund. The luck winner of the car was Mrs. Margaret Hutchinson of Clewiston. 5-7-46

LOCAL LOAN ASSOCIATION

(Continued from Page 1)
not guarantee a loan unless the appraiser appointed by them values the house and lot at an amount at least equal to the purchase price. This is to protect the veteran. Consideration is taken for the present cost of building and lot value.

Loans up to \$8,000 may be made on a 100 per cent valuation of the Administration Appraiser, and a loan may be made up to \$10,000, but the lower figure is preferred. There is approximately 5 per cent of the total cost of the house and lot allowed for title examination, fees for inspection and disbursement of monies, stamp and intangible tax, recording, appraisal and credit report.

The Veterans Administration and the USES have assured the Veterans Service Committee that assistants familiar with the details of making applications for these loans will be available at the Draft Board office two days weekly to facilitate

the filing of applications. With the availability of these Veterans loans in this area by a local concern and the favorable consideration of the civilian.

Materials More Plentiful

A Miami contractor, who has done considerable building in Belle Glade the past year, reports that the Miami situation is bad and while dealers have considerable building material on hand they decline to sell for fear of later Federal action. Lumber has come down in price and building block, which now stack the yards, is obtainable in unlimited quantity at a decline in price. Supplies are moving all over the land a little faster and hopes that the bottleneck which has stagnated building operations may be broken. However the outlook for commercial building is rather dark and doubtful.

More Scout Troops

The territorial administration rights of Gulf Stream Council of the Boy Scouts of America have been extended to take in the Indian county troops and those of Moore Haven and Clewiston. Camp fees for stays at the Lake Osborne camp this summer will cost the least about one dollar. Obligation of debts on the county camp has been assumed by the Council. With Canal Point, Pahokee, Belle Glade, Clewiston, South Bay and Moore Haven having troops, much more activity among lake region youth can be expected and some field contests can be arranged.

Endorse Hyacinth Fight

The Everglades Drainage District commissioners have endorsed a partial program for eradication of hyacinths from the canals and has also the backing of the Resource and Development Board. Work will be done on the Hillsboro canal from Belle Glade to the dike; on the North New River canal from South Bay to the lake; and on the West Palm Beach canal at Canal Point and Twenty Mile Bend.

The treatment will be plan spraying, but it will require several months before results and success or failure of the treatment will be known.

Ball Players Leave City

Ralph Kirk's bunch of baseball players is being depleted as three of them have left the city. The Lenhart brothers have gone to Ohio to work for the summer. Deward Brannon, the catcher, has gone to Washington, D. C., where he goes for a short vacation, and will enter college to take a course in electrical engineering under the GI bill of rights. Parrish is also expected to leave soon.

Rev. Cross To Preach

Rev. Walter T. Cross, assistant pastor, will have charge of the services at the Community Methodist church next Sunday, during the absence of Rev. J. O. Jameson, who is attending the conference at Daytona Beach. At the morning service, the close of the conference year, Rev.

Jameson received into church fellowship some six persons by letter.

Cancer Quota Goes Over The Top

Palm Beach county went over the top on its assigned quota for the Cancer Control fund drive having gained \$118,139 against its quota of \$10,940.00. Belle Glade contributed \$1702.31, including a \$500 check from the Rotary club; and Pahokee area \$815.42.

Will Conduct A Wholesale Meat and Fruit Store

J. W. Smith of Miami, who has been operating wholesale meat and fruit trucks in the Glades area for the past six years, has decided to open a branch of his business in Belle Glade. To this end he has purchased the grocery and chicken business of "Precher" Weeks on northwest Fifth street and "Jimmy's" Grocery Store in the Avery Bess store block on fifth street, which he will continue for retail outlets.

Mr. Smith plans as soon as he can make it, to provide a large meat and storage room for the refrigeration of his wares and state provide a local wholesale meat and fruit business for the benefit of local dealers. "Precher" Weeks retains his really holdings, but is planning on migrating to Georgia where he plans to engage in business.

New Lawyer Joins Beck Staff

Jack O. Johnson, a recent honor graduate from the University of Florida college of law, has come to Belle Glade and will be associated with Herbert D. Beck in the practice of law. Raised in Gladesville county, Johnson was graduated from Florida Southern college in Lakeland and later completed two and one half years of law before being called into the Navy in 1941. He was released from the service in November of last year with the rank of Lieut. Comdr., having just returned from the afloat where he served as combat intelligence officer with a PT squadron.

Gene To Georgia

Frank Phelan, who has been a Federal produce inspector here during the season, has been assigned to like duties at Manchester, Georgia, and is now SOUTH BAY JUNIOR

Practically all members of the faculty will attend the summer session of some college during their vacation.

COLDER CLIMATE

(Continued From Page 1) previous standing in the civic betterment of his community.

For several years Dr. Townsend has been a member of the Board of the West Palm Beach County hospital located at Pahokee. He is the immediate past president of the local Rotary Club, and has joined with other civic bodies in progressive improvements.

Aside from his outstanding work in edery, breeding, disease control and prevention, he is probably more widely known as the producer of the Florida Belle and its child, Dixie Belle, a bean that is popular with the farmer, the canner and the distributor.

The Florida Belle was sought as resistant to current diseases of the bean in the Glades, and its quality production and resistance to those diseases were a success. The Dixie Belle, a round, rather than a flat bean, is a third or fourth generation descendant of the Florida; it has an erect habit of growing with very stout stems branching out

at about a 45 degree angle. The pods are high on the bush, and of about 6-inch lengths, round fleshy and stringless, producing as high as 200 bushel per acre first picking.

Dr. Townsend will send for his family around the last of the month, after he has gone through the throes of securing a place to live at his new location.

The depletion of the staff of outstanding scientists at the Station will probably continue until the Board of Control and the budget Commission awake to the facts of life—that cost of living has gone up and these men of research abilities can't raise a family on the good fresh air and sunshine that is so free. Other states with less refreshing air and vitamin-packed sunshine pay much more attractive salaries.

640 ACRE FARM**For Sale or For Rent**

WILLOW ELDER LAND—This type of land is becoming more scarce each season.

PERFECT WATER CONTROL—means pumping in as well as out and the physical setup to hold a water table where you want it. The outside dyke is core-ditched to prevent seepage; all inside dykes are core-ditched between each 80-acre plot.

Each 80-acre plot has its own pump and power unit, so that of three plots the middle one may have a 3-foot table with those on each side having a 1-foot table.

The main control pumps and units have a capacity of 66,000 gallons per minute—enough to give better than 5 inches off the section in 24 hours.

ROCK ROAD runs to and thru the middle of the section, affording a 3 mile haul over good roads to the packing house district.

CITY WATER is piped to the farm and into all buildings and all are equipped with showers and modern toilet facilities.

ELECTRICITY is metered into each building from the Power Line RESIDENTIAL AND FARM BUILDINGS are more than enough to furnish labor for use on the farm—provisions are made for 100 persons to live. There is a barn, a machine and blacksmith shop of generous capacity.

620 AVOCADO TREES are planted on the dikes and will begin bearing in '47.

If you are interested in purchasing, terms will be arranged with responsible persons.

of properly operating the farm.

A long-term lease will be considered with persons capable of properly operating the farm.

There is a limited amount of farm and machine shop equipment to be negotiated for separately from the land and buildings.

PRAISES BEING SUNG FOR

Tufor Weed Killer

Our patrons who have tried out TUFOR report most gratifying results on weeds, rank grasses and plants producing Hay-Fever producing pollen.

TUFOR is the important chemical which is being used on Hyacinth control work on the canals and it is getting in its deadly work. Agriculture scientists proclaim it a successful killer and eradicator.

ADVANTAGES OF TUFOR

1. Economical—contains 27 per cent 2,4-D which means only three quarts per acre.
2. Safer to use—less volatile than regular 2,4-D.
3. Completely soluble—does not settle out.
4. Non-inflammable.
5. Does not irritate skin or corrode spray equipment.
6. Kills leaves, stems and roots completely.
7. Grass sprayed with TUFOR is not poisonous to animals.

An Interesting Story
About Bean Crops

L. W. Currier reports a phenomenal yield of 13,620 bushels of snap beans on a 52 acre tract in a late spring crop harvested in late April and May. The harvest on the entire tract yielded an average of 242.7 bushels per acre.

Mr. Currier attributes his success to dusting with DDT which kept the white fly and other pests from attacking the late spring crops, under control. He stated that he put on 30-35 pounds per acre and dusted at two week intervals. This was the greatest yield he has had in the 12 years he has been farming in the Glades, he said.

One bag of Florida Bell (Dr. Townsend) strain planted on 2 1/4 acres gave him a return of 63 bushels. Four bags of Florida Bells yielded 2570 on the first picking and 1214 at the second picking five days later, making a total of 3,783 bushels.

hamper or an average of 421
bushels per acre on 9 acres.

A four bag planting of Tendergreen yielded 1800 bushels and another block of 3 1/2 acres of Tendergreen yielded 1900 bushels. One four bag planting of Bountiful yielded 1981 bushels.

In all 21 3/4 bags of bean seed picked 13,620 bushels of beans. The earliest pickings sold at selling prices, but most of the beans went to the cannery at canneries prices.

In spite of the phenomenal yield on the spring crop, however, the season ended in the "red" since prices were such that he could not recoup losses on the fall and winter crops of beans and potatoes.

Gave Bridal Shower

Mrs. Edwin Best entertained Friday evening at a bridal shower honoring Miss Marian Mitchell on her approaching marriage to Leland Hardy on June 23.

Guests were entertained with games and contests and the prospective bride was given instructions as to procedure for the wedding march. Many lovely and useful gifts were showered on the honoree who opened and displayed them. Light refreshments were served to Mrs. F. W. Mitchell, Mrs. H. C. Willis, Mrs. E. M. Willis, Mrs. C. J. Jones, Mrs. J. W. Strickland, Mrs. Edwin Armstrong, Mrs. C. A. Armstrong, Mrs. S. M. McAllister, Mrs. A. O. Ward, Mrs. E. E. Dasher, Mrs. J. P. Prevatt, Mrs. Leland Hardy, Mrs. Wm. O. Sustains Bad Burns

Paul, twelve year old son of Mr. and Mrs. A. L. Byrd, was seriously burned in an accident at the home in South Bay Saturday. An attempt was made to light a blow torch when it exploded spraying fire all over the chest of the boy and setting his clothing afire. He ran but was caught by his cousin, Charles Byrd, rolled in the muck and the fire extinguished.

He was rushed to the Migratory hospital and found to be critically burned on the chest, under the arms and on the lower torso and limbs. Fortunately his face was not burned.

Louis Motus To Manage
Service Station

Arthur Wells has taken over the filling station he owns at the corner of South Main Street and Avenue E and is re-equiping, repainting and remodeling it for use as a modern service station with a barbecue and sandwich shop.

Louis Motus, who will manage the service station is adding tires and auto accessories, factory lubrication equipment and the many complimentary services found in a modern station. Louis, whose training in the Army as a service man on all types of military machines was interrupted when he was wounded and captured by the Germans, expects to use all the methods learned as well as to keep up with other new methods of the industry.

Mr. and Mrs. Raymond Bickley, sister and brother-in-law of Mr. Wells, will operate the food department with present help from the Greenleafs. They plan to modernize the entire plant for an up-to-date barbecue shop.

Opens New Office

The Penitentiary Life Insurance Company, of which Ralph Kirk is the local representative, has moved and fitted up a fine general office on the second floor of the Seaboard building.

Farmers Meet

The farmers in the Lake Harbor vicinity have met and agreed to cut day labor \$1.00 per day beginning June 1 as it is agreed that labor in this area has outstripped the ability to pay considering prices for farm products.

Wins Fishing Prize

Nathan Johnson, with a six pound big mouth bass caught on the Lake Harbor fishing contest for the month of May and the prize, a Shakespeare Wonder reel offered by the Lake Harbor Supply. The prize reel will be a Shakespeare Triumph reel with 220 pound test line.

STUART NOW LEADS

Continued from page 1
A mauling of five hits and two errors had cost the Braves a victory by the score of 8 to 3. Bruce Williams poked the last inning for the Pirates.

Belle Glade took the lead in the second when two Braves came across the plate. Bruce Williams poked out a double and Crosby and F. Emory singled, Pompano got a score on his hit, an error and a sacrifice in the fifth, then got another score on a double, two singles and an error in the sixth or the final. Belle Glade tied.

NEW Gasoline!

The new Sinclair Gasoline is made to give your car the surging power that aviation gasoline gave to war planes.

The same 100-octane gasoline components developed for war have now been blended into the new Sinclair Gasoline. That's why we believe you'll call this new and mighty gasoline the most power-packed fuel your motor has

ever had a chance to use. Stop in today at the Sinclair Dealer and fill up with the NEW Sinclair "H-C" or NEW Sinclair Ethyl. You'll find that the higher-octane, quicker-burning, power-packed Sinclair Gasoline makes your car fairly fly.

Look to Sinclair for Better Products—Better Service.
